

# ENVIRONMENTAL POLICY

Lemos & Moreira, Lda has the mission to present the best solutions when it comes to optimising production processes, combining tradition with contemporary times, guaranteeing the excellence of its products supported by a quick response to customer requests and personalised service. Therefore, Lemos & Moreira LDA values environmental issues, seeking the most ecological and sustainable solutions.

Implicitly complying with current legislation and other compliance obligations related to its relevant stakeholders, Lemos & Moreira LDA is committed to protecting the environment from the impacts that its activity may cause, including the prevention of pollution, with regards to the best available techniques. with the aim to minimise its environmental impact, particularly regarding water and energy consumptions, aiming to continuously improve its environmental performance.

In pursuit of the requirements associated with the concept of Environmental Policy stated, Confeções Lemos & Moreira also commits to promote the following:

- Minimise residue production;
- Prevent environmental impacts;
- Ration energy and water consumption;

In this way, the aim is to disseminate measures that promote the awareness of its collaborators as to adopt the right attitudes so as not to harm the environment.
